200 YEARS OF EXPERIENCE IN THE PHARMACEUTICAL INDUSTRY

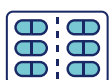

Manufactured in Poland. For a safer tomorrow.

We are the oldest pharmaceutical company in Poland and one of the oldest in Europe. Since 1823, we have been laying the foundations of Polish pharmacy, introducing breakthrough solutions. We were the first in the country to manufacture penicillin, insulin, and antibiotics, setting new standards in treatment. Today, we are responsible for producing 10% of the medicines on the EU's critical medicines list, ensuring access to essential therapies for millions of patients.

We specialize in both active pharmaceutical ingredients (APIs) and finished dosage forms, including solid oral medicines, injectables, aerosols, and dermatological gels. Our portfolio includes more than 50 products in over 130 forms and strengths. Each year, we deliver over 25 million packages to hospitals, pharmacies, and medical institutions, safeguarding the health and lives of patients around the world.
